OBJECTIVE

Highly motivated Engineering graduate, driven by a profound passion for technology. Recognized for rapid learning, good communication, and problem solving. Actively seeking job opportunities and internships to contribute proactively to dynamic organizations, I am eager to foster continuous learning and professional development. Approachable and open to new challenges I am thrilled at the prospect of making a meaningful impact in the ever-evolving landscape of technology.

EDUCATION

Bachelors of Computer Science and Engineering Cybersecurity, Vignana Bharathi Institute of Technology 2020 - 2024
Secured 8.19 CGPA

Intermediate MPC - SR Junior College, Karimnagar 2018 - 2020
Secured 89.2 %

Secondary School Certificate Telangana – Vivekananda Vidyanikethan High School, Metpally, Jagitial 2017 - 2018
Secured 10 CGPA

SKILLS

Technical Skills: C, Python, Java, HTML, CSS, JavaScript, Git and GitHub, SEO, Docker, Ethical Hacking, Penetration Testing, Vulnerability Assessment, Report Writing, IOC Monitoring, IDS Monitoring and Triage, Log Analysis, Computer Networking, Network Administration, MS Office

Soft Skills: Attention to Detail, Good Communication, Problem Solving, Leadership, Self-Motivated and Team work

PROJECTS & SEMINARS

BugHunterX: A collaborative web penetration testing toolkit written in Bash script. Utilizes tools like Subfinder, Nmap, OwaspZAP, and more for real-time vulnerability assessment, with notifications on Discord.

NexGen SIEM (Security Information and Event management): A modern SOC architecture for the evolving threat landscape. Crucial in organizational security operations and leverages ELK stack, Docker, MITRE – ATT&CK framework for innovative alert systems. [[Explore this project](#)]

Enhancing Cyber Resilience: The Role of Threat Intelligence in Risk Management [[Explore this seminar Report](#)]

Watch-Dog: Watchdog v1.0 is a Python-based program designed for capturing and analyzing network packets. It provides users with the ability to Monitor and gain insights into network traffic, making it a valuable resource for network administrators, cyber enthusiasts and anyone interested in understanding the flow of data across a network. EXTRA-CURRICULAR ACTIVITIES

Actively writes articles and blogs related to **cybersecurity (LinkedIn, Medium)** to help the cyber enthusiasts seek comprehensive understanding over tools and technologies.

CHRONOS hackathon winner [**Second Place**] (Organized by **EpsilonPi** machine learning forum of VBIT)

LEADERSHIP

Chair Person of **ABHEDYA** (An official Cybersecurity Forum of VBIT) (Feb, 2022 - May 2024)
Member of **SHODH** (Research and startup development initiative VBIT) (Jan, 2021 – May 2024)

COURSES AND INTERNSHIPS

Google Cybersecurity Professional (GCP)
Career Essentials in Generative AI by Microsoft and LinkedIn
Cybersecurity Essentials by Cisco Netacad
Cybersecurity Fundamentals by Palo Alto Networks
PCAP Programming essentials in Python by Cisco Netacad
Cybersecurity Internship [MAR 2022 - MAY 2022] by AICTE & Palo alto
Salesforce Developer Internship [APR 2022 – MAY 2023] by AICTE, Smartinternz in association with Salesforce
